## WHT - 6000 GBS Wi-Fi THERMOSTAT

The WHT-6000 GBS Warmset Wi-Fi thermostat is specially designed for floor heating system remote control and allows accurate temperature regulation for significant energy savings.

The simple and the round line make it an object that is well coordinated with modern and design home furnishings. It is possible to control the thermostat by an easy app for smartphone.

It also adds other convenient features such as holiday mode, ECO or antifreeze.

<b>SUPPLY</b>	95~240 VAC
